JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co.'s
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.
It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

EMPIRE
INSURANCE COMPANY,
Union Springs, N. Y.
CAPITAL........$100,000.
THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."
They submit for the judgment of their fellow citizens the following summary of their plan of operations:
1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.
The Directors, in soliciting patronage for the *Empire Insurance Company,* do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.
For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK
MUTUAL BENEFIT ASSOCIATION,
Union Springs, N. Y.
THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.
Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.
Conditions of Membership.
A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. THIS Company offers unrivalled facilities for the Insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES,

WISCONSIN.

At the opening of the 19th century, the "Territory North-West of the Ohio" was an unbroken wilderness, shared in doubtful supremacy by the aboriginal man, and the other denizens of the forest and prairies.

It were needless to except from the universality of this description, the occasional advent of the Indian trader, the nascent settlements on the Ohio, which were attempting a precarious existence, or the Military posts which were pushed into this outer domain of our Republic, in token of our political dominion, and as heralds of an advancing civilization.

In 1802, the State of Ohio was carved out of the body of the North-West, and admitted into the federal Union. Steadily advancing in population, wealth and respectability to its present enviable position in our political system, her brief but impressive history commands the admiration of older communities, and awakens the generous emulation of the new. Her population, in 1850, had reached nearly 2,000,000 souls, and she ranks the third in the sisterhood of States.

The history of Ohio has been the history, in succession, of Indiana, Illinois and Michigan.—Their advance has been, in like manner, rapid in population and in the other elements of political greatness. The four States, above enumerated, contained in 1850,4,000,000 of freemen.

Surprising as these results are, transcending all the world has previously known of the creation of new political communities, by the peaceful migration of men and of the arts, distancing, even, all previous experience in the settlement of the new world, it might seem enough for Wisconsin, the youngest of the creations of the Ordinance of '87, to say, that she is of the North West, and shares with her kindred States, in the experience of a like early development. But to say this, is not enough. The settlement of Wisconsin has thus far been on a scale, unapproached even by that of the four States above enumerated, and constituting with her, the area long familiarly known as the "Territory North West of the Ohio." That this is not a vain boast, is a fact too broadly and familiarly known, to need the formality of demonstration. For the satisfaction of the curious, however, there is appended hereto a tabular view of the population of the five states of the North West, for decades of years, constructed by collating the census returns from 1800 down to 1850. From this table it appears, that during the decade 1840-50, the population of Wisconsin advanced from 30,000 to 305,000, while at corresponding decades of their growth, Ohio presents the figures from 45,000 to 230,000, and Michigan from 31,000 to 212,000, while the corresponding increase of Indiana and Illinois was in a much smaller ratio.

It will be observed that the increase of Wisconsin, for the ten years ending in 1850 was 900 per cent. By examination of the census returns of that year, it will be found that the increase of Iowa, was 345 per cent.; that of Arkansas 114 per cent., and in no other State over 100 per cent during the same period.

This migration to Wisconsin, unparalleled as it is, in the experience of States, has not been the fitful result of the gambling mania which is luring its hordes of victims to the land of gold. It has been the steady and persistent flow of men and capital, seeking a permanent home and a profitable investment. After filling up the southern tier of counties, the unbroken tide is setting strongly to the fertile vallies of the Fox and Wisconsin rivers, with their tributaries, and to the Mississippi border.

Wisconsin is no less distinguished in the character of its early settlers, than in their number. Recklessness and wild adventure has found little place in the history of this migration.

Michigan was fairly open to survey and settlement as early as 1830, and in the course of the succeeding ten years its capabilities were explored and appreciated; during which period its population rose, by a massive immigration, from 31,000 to 212,00. In 1840 the relations of Wisconsin to the intelligent enterprise of the Eastern States, was what those of Michigan were ten years earlier. The straits had been passed by sails and by steam, and the Territory of Wisconsin was open to settlement.

The conviction, however, had fastened itself on the mind of New England and New York, that the physical elements of prosperity were more decided and more readily available in Wisconsin, and would work out an earlier maturity, economical and social, than had been realized in the history of other States. In accordance with these impressions, it is confessedly true, that the basis of the social character of Wisconsin has been laid in a migration as distinguished in character, as it has been surpassing in numbers. The intellect, the education, and the integrity—the head and the heart,—as well as the enterprise, the wealth, the industry and the skill of New York and New England, have been laid broadly and deeply under requisition, to furnish out the staple of the population which is to leave its impress on the State for generations to come. Wisconsin has been equally fortunate in the numbers and the material of her foreign immigration. The great European movement, which is likely to characterise the latter half of the 19th century, will consist, not so much in the improvement of the forms of social organization at home, as in the reproduction of her civilization under greatly improved conditions, by a massive emigration to the new world, whose broad surface of land still unoccupied is demanding settlement and cultivation, with a voice now familiar to the ear, and attuned to the heart of Europe.

There is a Germany in America which is destined to be greater than the German's fatherland.—Ireland is already Cis Atlantic, and regenerated. The Scandinavian, with a remarkable power of assimilation, touches our shores and is American in thought, feeling and language. From all these sources, Wisconsin is deriving large and steady accessions of numbers and of wealth, of enterprise and of cultivated intellect: not of those who drop down by accident within our borders, but of those who leave their native shores with no other intention than to find a home in Wisconsin. Through these several channels of increase and progress, Wisconsin presented in the year 1850—the third of her existence as a Sovereign State and member of our National Union—a population of 305,000 souls, a result absolutely without parallel in the settlement of States. And it is equally true that the opening of her career as a sovereign State, had been from a point of nearer approximation to the standard of social maturity which prevails on the Atlantic border, and with far less sacrifice of the advantages and refinements of modern civilization, than has been true of other new States, whether of the North-West, or of other portions of the great valley.

It is, therefore, an interesting question, and one which has attracted attention, public and private, what are the natural capabilities of Wisconsin, which have made so broad and permanent an impression upon the mass of mind at home and abroad, as to bring to her shores so large a portion of the men and the capital that are annually seeking a home and investment of the West?—The answer to this inquiry naturally arranges itself under a variety of heads, which will be very briefly considered.

Geographical Position.

The State of Wisconsin comprises most of that portion of the original North Western territory which lies north of the parallel of Lat 42 ° 30, and between Lake Michigan and the Mississippi river, and extending to Lake Superior on the north. A portion of this expanse of territory, lying between Green Bay and Lake Superior, and to the north and east of the Menomonee and Montreal rivers, is attached to Michigan; and another portion, west and north of the St. Croix and St. Louis rivers, to Minnesota.

The area of Wisconsin, exclusive of the waters of Lakes Michigan and Superior comprises fifty-four thousand square miles, or thirty-five millions of acres.

Climate.

Included between parallels 42 ° 30, and 48 ° north, the climate of Wisconsin is of the same general character with that of New York and New England. The average annual temperature, however, of Wisconsin is not of so low a figure as that of the same parallels on the Atlantic border. The atmosphere is drier, more transparent and salubrious, and the whole area of the State is remarkably free from those causes of endemic disease which were by no means unknown in the settlement of western New York, which have been the misfortune of large portions of Michigan, and the scourge of Indiana, Illinois, Missouri, and, in part, of Iowa. Wisconsin is conceded to be the healthiest of the western States. Its Summers are adapted, in temperature and duration, to perfect all the products natural to the latitude, but are not oppressive. Its autumns are proverbially delightful. Its winters are close and uniform, but not harsh or generally severe.

Geological features, soil, &c.

The limestone, underlying the coal fields of Illinois, forms the immediate basis of the alluvion of Southern Wisconsin. This geological district, in addition to that portion of the State which lies southerly of the valley of the Wisconsin river, comprises the whole of the slope towards Lake Michigan.

In many portions of this district the lime rock disappears, and the out-cropping sand stone furnishes a fine material for building. The lead bearing rock of the mineral region is a porous lime stone, prevailing throughout Grant, La Fayette and Iowa counties, comprising four fifths of the "Lead District" of the upper Mississippi, the remaining one fifth being in the States of Illinois and Iowa.

Deposits of iron ore, water lime stone, and beds of Gypsum, together with other varieties of minerals, are found in localities more or less numerous throughout the lime stone region.

All of that section of the State, which lies between Lake Superior on the North, and the falls of St. Anthony on the Mississippi, and the falls of the other rivers flowing southerly, is primitive in its prevailing Geological character; and it is within this primitive region, that the copper mines of Lake Superior are found—probably the richest in the world, and apparently inexhaustible. In all that portion of the State, lying between the primitive region just described, and the lime stone formation of the South and East, the transition sand stone prevails; interspersed with lime stone, and more sparsely, with rock of a primitive character. This formation comprises that section of country drained by the Wisconsin and other rivers tributary to the upper Mississippi, and below the falls of these streams.

The character of the soil of Wisconsin is, of course, indicated to some extent by its geological features. The lime stone district of the State is over spread by a soil and subsoil similar to that which prevails in other portions of the great valley, and unsurpassed by any in fertility. It is the distinction of the mineral region of Wisconsin, that it is overspread by a surface of the very first agricultural qualities; contrary to the general fact, that a mining district is worthless for the purpose of culture.

Proceeding northerly and westwardly of the dividing ridge between the waters of Lake Michigan and those that flow into the upper Mississippi, the soil will be observed to become more sandy and porous; a character which will be found to prevail throughout the sand stone region above described. This portion of the State admits of easy cultivation. The soil is warm and highly productive, and the growth luxuriant.

Face of the Country, Scenery, &c.

The surface of Lake Michigan is about six hundred feet above the level of the Ocean. The surface of the State is every where undulating; not hilly, much less mountainous. Its average level below Latitude 46 ° is about 250 feet above Lake Michigan; seldom falling so low as 100, and rarely rising above 400 feet. The highest of the Blue Mounds, on the line between the Counties of Dane and Iowa, rises 1170 feet above Lake Michigan, and is perhaps the most elevated land in Wisconsin. There is a remarkable depression in the surface of the country, running across the State, from Green Bay to the Mississippi, the bottom of which furnishes the channels of the Fox and the lower Wisconsin. The portage between these two rivers is less than two miles, and of so trifling an elevation that when swollen with rains, the Wisconsin often mingles its waters with those of the Fox. This portage is but 223 feet above the level of Lake Michigan; being the elevation of the dividing ridge, at this point, between the basin of the Lakes and the valley of the Mississippi.

At the mouth of the Wisconsin, the western terminus of this depression is about 60 feet above Lake Michigan; that of Lake Winnebago, at the head of the rapids of the Fox, being 160 feet.—From the north into this valley flow the upper Wisconsin, and the Wolf, and on the South the country rises to the level of the head waters of the Rock, 316 feet above the surface of Lake Michigan. Thence there is a gradual inclination of the surface Southerly to the line of the State; the elevation of which at the egress of the Rock is 128 feet above the Lake. It is characteristic of the State, that the streams uniformly flow in beds but very slightly depressed below the general level of the adjacent country, and present no difficulty in the way of the construction of roads of easy grade, transversely, as well as in the line of water course. There is also, from this cause, much less to be apprehended from the sudden and destructive swell of the volume of water, from copious rains—two considerations, which they know best how to appreciate, who have dwelt where rivers and their branches make their beds in deep vallies, while the general elevation of the country is but a succession of intervening ridges.

Such being a general description of the surface of Wisconsin, the immigrant will not look for Alpine scenery, or the bolder and sublimer features of the country, of the high mountain and deep valley. But in all that constitutes the beauty of the landscape, whether in the vestments of nature, or in those capabilities which cultivation can almost develope, Wisconsin is without a rival. Among her ten thousand undulations there is scarcely one which lifts its crown above its fellows, which does not disclose to the prophetic eye of taste, a possible Eden—a vision of loveliness, which time and the hand of cultivation will not fail to realize and to verify.

The only forests, of a growth approximating towards those of Western New York and Northern Pennsylvania and Ohio, are found in a small portion of the Rock River valley, and in a narrow border on Lake Michigan, widening as it is traced Northerly; evergreens becoming more freely interspersed, and finally predominating. The evergreen growth prevails in the vallies of the streams of the sand stone district of the State. The most extensive pinery in the State, is found on the upper Wisconsin. The same valuable growth prevails in the vallies of the Wolf, the La Crosse, the Black, the St. Croix, and other streams penetrating the sand stone region.

Aside from these localities and the primitive region of Lake Superior, the elements of the Wisconsin landscape are rolling prairie, the sparse woodland, the opening, the natural meadow, and the lake. These, in their infinite variety of combination, and in their unrivaled loveliness, make up the natural scenery of the State. Three hundred and fifty thousand souls have, in a day as it were, found a happy home in Wisconsin. But her millions of acres, equally beautiful, and all untouched, are still courting the hand of cultivation, and the adornings of art.

LATE CALIFORNIA ITEMS.

Indian Troubles, &c.

The intelligence received by the last arrivals from the Golden State, give accounts of more Indian troubles.

An Indian massacre had taken place on Klamath, in which 40 Indians had been killed, and 3 houses burned to the ground.

Mr. McCombe, of Gregory's Express, informs the *Herald* that intelligence reached Sacramento yesterday to the effect that the Indians have again become hostile, and in Scott's Valley had killed 140 white men, and had property amounting to near $250,000. The Senators from the counties of Klamath and Shasta, it is said, had applied to the Government for aid to expel the Indians from their present locality, and to suspend the treaty with them.

A bloody massacre took place at Sitka, Russian America, on the 22d ult. Forty-six Indians of the Starkin tribe, while on a visit to the Sitke or Colusa tribe, were inhumanly butchered by the latter. Indian vengeance has probably ere this been taken.

The first importation of ice from the Russian settlements of the North Western coast entered our harbor on the 11th instant. Two hundred and fifty tons were brought into the market by the Pacific Ice Company, who had a species of exclusive privilege to obtain ice on favorable terms at Sitka. The enterprise is a new and a novel one, and will doubtless prove profitable.

POLITICAL ITEMS.—Mr. Holden, delegate to the Baltimore Democratic Convention, will not be present on account of ill health.

The whole whig municipal ticket at Sacramento is elected. C. I. Hutchinson has 266 majority for Mayor; the other officers have nearly double that majority.

DOUBLE TRACK FOR THE ERIE RAILROAD.—The business on the Erie Railroad has become so vast in the first year since it was opened through, as to demand a double track. The American Rail Road Journal states that contracts have been made for the construction of 125 miles of double track: from Suffrens to Otisville, 45 miles; from Great Bend to Chemung railroad junction, 76 miles; and from Corning to Painted Post, 3 miles—making in all 125 miles. The iron is to be furnished by the Company. The contracts embrace all other items of cost, for which the contractors take the stock of the Company. It is probable that a double track will be constructed in a few years the entire distance between Piermont and Hornellsville, 318 miles. The Journal says the portion already provided for will materially increase the capacity of the road for business, and at the same time diminish its liability to accidents.

M. & M. RAIL ROAD.—The engineer of the Milwaukee & Mississippi Rail Road passed thro' this town a few days since, looking out the most feasible route for the road. It appears to be the general impression now that the company intend to take a more direct route from Whitewater to this place, than that first proposed, and to run a branch directly to Janesville on the old route from Whitewater to Milton. This appears to us much the most practicable plan yet suggested. We could never understand the policy of running this road 20 miles south of the direct line to get to Madison from Milwaukee. It is the design of the company to press the completion of the work to the Wisconsin river at the earliest practicable time. The news from New York is that money may be obtained for the work on much better terms than had ever been anticipated by the company. There is no longer a doubt that the road will be completed to this place at an early day—it is thought by many of the best informed, by the first of January next.—*Madison Democrat.*

NEW ORLEANS, May 17.

We have advices from the Rio Grande to the 13th inst. The cold blooded murders and robberies of the Mexicans on this side of the river had caused much excitement and large parties of Americans were organizing on the Rio Grande to resist them in their aggressions.

In the McDonough Will case it is reported that the Superior Court has determined to render judgment in favor of the cities of New Orleans and Baltimore, thus rejecting the claims of the States of Louisiana and Maryland.

CRIME.—The Niles (Mich.) Republican complains that crime is increasing alarmingly in that vicinity. One day last week, the body of a female was found packed in a box in a railroad car, at New Buffalo, cut up in a most shocking manner—murdered by some person unknown; the body not known. Some citizens are calling for a vigilance committee, after the California plan.

COLLINS STEAMERS.—On Thursday last in the U. S. Senate, the amendment to the deficiency bill, to give the Collins Steamers $33,000 per trip was carried, 23 to 21.

FOURTH OF JULY.

We are within six weeks of our great National Anniversary and unless it is intended to give it the "go by" this year, as we did the last, it is high time preparations were on foot to celebrate the Day in an appropriate manner. We have material enough in our City to get up a very handsome celebration, and our country friends would flock into town by thousands to help along. It is a part of our creed that this Memorable Anniversary should be welcomed upon each recurrence with every suitable demonstration of popular enthusiasm and regard. The day and the deed which it commemorates should be kept ever fresh in the memories of the American People. Each succeeding year gives us additional reasons for pride, gratitude and self-congratulation in the results of the great drama which the 4th of July 1776 introduced to the world. We are always therefore, in favor of celebrating the Day heartily, thankfully and unanimously. We claim in this good work the co-operation of all our citizens, Native and adopted; of our Military Companies, our Fire Department, and our various Civic and Benevolent Associations. We have never yet had a full turn out of all these different societies, and we could not have a better day to begin than the coming Anniversary of our National Independence. We hope, therefore, to see a move made at once to ensure a becoming celebration of the approaching Fourth of July. Let Delegates from our different Military, Civic and Fire Companies meet in Convention; select an Orator and Reader; arrange a procession; order a good supply of Fire-works from Buffalo or New York, and take such other steps as they many deem necessary to "keep Fourth of July" in good, old-fashioned style. The sooner this is done, the better.

The Mail Service.

Early on Monday morning, the steamer *Globe* arrived here, having made an average trip, stopping at all the way ports from Buffalo. By the mail which arrived about 4 o'clock in the afternoon of the same day, we received the Buffalo papers announcing the *Globe's* clearance! All this time travellers arrive daily in three days from New York.

In the name of common sense, and common decency, is this state of things to continue? Are we ever to have an examination by the department into the reason of these outrageous delays? Last year, our mails came through very frequently in 3 days. Why should they be 5, and frequently 7 days, this year? The rate of travel has been increased—why should the mails be longer in coming? We do not doubt that New York papers of one day leave Buffalo on the next evening, and that Buffalo papers leave that city on the day of their issue. Travellers come through in 3 days from New York, and 2 from Buffalo, yet the papers take two or three days longer! How does this happen, unless they stop at Detroit or Chicago? Detroit papers ought to be here on the day after their publication. Yet it takes them 2, and sometimes 5 days to get here. THAT wrong is doubtless at Chicago. How long shall these things continue?

P. S. For want of news matter, and because of the failure of another mail, we add this paragraph. The boat was in at 4½ o'clock yesterday afternoon, bringing us *no N. York or Buffalo papers* and, instead of fifty, only the following sum total: Albany *Journal* and *Argus* of the 20th, do *Register* 21st, Sandusky *Register* of the 22nd, Geneva (N. Y.) *Courier* of 19th, Chicago *Journal* and *Democrat* of yesterday, (no *Tribune*,) and Detroit *Tribune* of last Saturday—no other Detroit; papers or papers of any kind. For a week hence these mails will come straggling along.

Still further; our last Buffalo papers are dated May 20th. Yet the Express Company brought packages yesterday, which left on the 22d. So it goes.

"SIGNS OF THE TIMES."—The N. Y. *Mirror*, a very zealous Fillmore paper, is out of all conceit with the results of the Delegate Elections in the Empire State, and suggests the following remedy:

> The National Whigs would be justified, under the circumstances, in calling a State Convention, appointing thirty-six Delegates to Baltimore, demanding their admission; and in case of refusal, adjourning to meet in National Convention, without distinction of party, to nominate a Union Ticket. The People would sustain the movement, despite the hue-and-cry of the political jugglers and the emergency would justify the *coup d'etat.*

The "Union movement," tho' perseveringly urged by the *Mirror* and other waiters upon Providence, don't take with the People. We should like to know, by the way, where the *Mirror* expects to find a better Union man than WINFIELD SCOTT?

PARALLEL CASES.—It is a somewhat singular coincidence that the Erie Canal Enlargement is just now surrounded with *exactly the same difficulties* as beset our own River Improvement—an act having passed the New York Legislature for the immediate completion of the work, by appropriating the prospective revenues, provided capitalists can be found willing to advance money therefor and look to the Canal Revenues alone for repayment. The enemies of the Enlargement, of both political parties, contend that this law is unconstitutional, and the work is suspended until the whole matter shall be subjected to the decision of the proper court.—*Green Bay Advocate.*

Assuming the *Advocate's* premises to be correct, the inference is fatal to its case. If the Fox River Improvement and Erie Enlargement bill are indeed "parallel cases," then the veto of Governor FARWELL was right beyond all question.—For the New York Court of Appeals have pronounced the Canal Law unconstitutional and void, and *a fortiori* the Fox River bill is defective in the same vital particulars. Out of its own mouth, therefore, the *Advocate* stands condemned. The very precedent or parallel which it quotes is against it. The propriety of Governor FARWELL's course is already vindicated in the very quarter where it was most vehemently assailed.

☞The Legislature of Wisconsin has appointed General William R. Smith, formerly of Pensylvania, to write a history of Wisconsin.—*Exchange.*

Either Gen. Smith has to write a very small volume, wherein "a rivulet of text shall meander through a meadow of margin," or else he is to invent a historical romance "by authority." Certainly, Wisconsin has not reached an autobiographical age; her history is infantine; it will have to rank for years to come with those gems of baby narrative, Jack the Giant Killer, and the Babes in the Woods. Its great deeds will lie on the page of the chronicler like the squares and turrets and spires of the prairie city—surveyed, but yet unbuilt Histories, unlike laws, should be *ex post factum.* —*N. Y. Times.*

The *Times*, in its "vaulting ambition" to be smart, has "o'erleaped the mark" this time. It will be the duty of Gen. SMITH to procure and place on record together, documents relative to the early French Missionary travellers through what was then an unbroken wilderness, and thus to trace down the progress of settlement, until this period. The History of Wisconsin may be hereafter written, at the proper time, and by some competent hand, who will be provided with the necessary documents, on file in the State Department.

HARMONIOUS.—The N. Y. Evening *Post* says of the denial of the Washington Union, that it has experienced a change since Major Donalson retired, that it must be taken in the sense in which topers boast of their regular habits, because they go to bed drunk every night.

THEATRICAL.—The N. Y. *Express* states that MRS. DREW, a great favorite among the Milwaukee theatre-goers, is to sustain the principal female characters at Burton's Theatre, in New York, during the ensuing season.

IOWA.—The Whigs of the First Congressional District in Iowa have nominated, in Convention, Philip Viele, as their candidate. He lives in Lee county, and is a true Whig.

☞ For the benefit of our democratic readers, some of whom may not know what is going on, we copy the following from the correspondence of the Chicago *Democrat*:

Presidential Operations in Wisconsin,

MILWAUKEE, May 21, 1852.

I write you to apprise you of a fraud which is attempted to be played off upon the Democrats of Wisconsin, at the National Convention. In consequence of the course pursued by the late administration of this State, at the late Senatorial Election, the great mass of the Democrats of the State rallied and dropped every man of them. The same convention nominated Delegates to the National Convention, and designed to nominate true, strong friends of the father of our Wisconsin Democracy, the Hon. Henry Dodge, and in case it should be deemed expedient, after they had carried out the wishes of the Convention, with the name of Gen. Dodge, to vote for Judge Douglass, and under all circumstances to oppose the nomination of Gen. Cass. Gov. Dewey, through pledges made for him by his friends, and in consequence of assurances he gave personally that he would faithfully carry out the wishes of the democrats of the State, was chosen one of the delegates at large, and John Delaney, Esq. of the Rock River Times, by similar assurances, was made one of the District Delegates. It has lately come out that Gov. Dewey, finding himself unable, in consequence of his pledges and the assurances of his friends, to do violence to the wishes of the Convention that nominated him, has concluded not to attend the Convention, and vote for Gen. Cass in person, but has endeavored to appoint a substitute who will; and the individual he is endeavoring to foist upon the Convention, and thus misrepresent the people of the State, is one who was before our nominating Convention for a responsible station, and signally defeated.—Delaney, it is now rumored, also will belie the wishes of the Convention that nominated him, and support Gen. Cass. Fortunately for the democracy of the State, Gov. Dewey's effort to betray the confidence they reposed in him, will prove harmless, for the reason that as the Convention made no alternates, our previous delegation to the National Convention, under similar circumstances, decided the power to fill vacancies rested with those delegates in attendance. The same opinion is held by the majority of our delegation now, and that opinion has been expressed by two-thirds of the democratic papers of the State.

I write these things to you to let you know, and through you the country, if the Democracy of this State are misrepresented, and Gen. Dodge and Judge Douglass betrayed, how it has been effected and by whom it was done.

If Gen. Cass is nominated, the Democracy of Wisconsin will unquestionably support him, and he will probably get the vote of the State; but there is not a man named in connection with a Presidential nomination, that would not get a stronger vote, and receive a more cordial support than Gen. Cass Judge Douglass or Gen. Dodge would cary Wisconsin by from 7000 to 10,000 majority.

Yours truly,
BADGER.

Emigration.

We think it probable that our state will receive an accession of forty or fifty thousand to its population this year by emigration from abroad.—*Mil. Sentinel.*

About ten thousand of the above population might be pleasantly located in Grant County.—There are some just as good unoccupied lands there as the sun ever smiled upon, and we believe they can be purchased of the owners at very reasonable prices. Should the emigrant Agent do justice to the entire State, he will not forget to direct the steps of some of these emigrants to Western Wisconsin.—*Potosi Republican.*

Our Grant Co. cotemporary says nothing more than the truth, relative to the inducements held out by Grant County to the industrious settler.—Its wealth of fine farms, now reduced in price by the emigration to California, and its vast mineral resources, are cogent arguments in its favor; and we doubt not that the State Emigration Agent will take pleasure in making them known to such as are directing their footsteps hither.

Illinois Whig Convention.

The Chicago *Journal* gives the details of the proceedings of the Convention at Joliet. BUCKNER S. MORRIS, of Cook Co., was nominated for Governor, a delegate to Baltimore chosen, and the following resolutions unanimously passed:—

Resolved, That we have full and entire confidence in the patriotism, principles and statesmanship Millard Fillmore, Daniel Webster and Winfield Scott, and we cordially recommend their respective claims to the next Presidency to the fair and impartial consideration of the National Whig Convention; and that although we have our individual preferences for one or other of these distinguished men, yet we will cheerfully submit to the determination of that Convention, and we do pledge ourselves to support the nominee thereof with our utmost ability, earnestly appealing to Whigs everywhere, to forget all personal differences and unite as one man in the coming State and National contests, confident that with such a union our success is certain.

Resolved That Gen. Winfield Scott *is the first choice of the Whigs of this district for the Presidency*: and in our opinion, if nominated, he will ensure the complete success of the Whig party in the approaching Presidential canvass.

A GOOD DAY'S WORK.—On Thursday last, the Michigan Central Railroad was very nearly completed into Chicago, and Mr. BROOKS, the energetic Superintendent, was determined to reach the city the next evening. The result shows what a determined will can do. He went at it on Friday morning with a full complement of hands, and during the day graded half a mile of road bed laid ⅞ of a mile of iron and 20 rods of platform and brought the cars into Chicago in the evening with flying colors.

The road did another sort of good business that same day—the train which came through having left Detroit with 700 passengers.

"WISCONSIN."—Under this title we commence to-day, and will complete on Friday morning, a condensed history of the settlement, climate, resources, &c., of our State, prepared by an able hand, and first published in the Madison *Express.* Should any of our citizens wish to procure copies of the Weekly *Sentinel*, containing it in full, they will oblige us by giving word at the counting room before Friday.

NICARAGUA.—Late letters from San Juan, called Greytown by the English, state that the Americans largely outnumber the English there. They have formed a society called the *Gallinippers*, in token of their contempt for the *Mosquitoes*, and they mean to elect a City Council shortly, excluding the English entirely. Thereafter, John Bull will have very little occasion for a ship of war in that port.

LARGE CONTRACT.—Messrs. Phelps, Meattoon, and Barnes, of Springfield, Mass., have taken the contract to build the Terre Haute and Alton railroad, 175 miles in length. These gentlemen have contracted to build the road, furnish the iron, build the depots, cars, locomotives, &c., putting the entire road in running order, within three years, for the round sum of three millions of dollars.

A NEW COMER.—The steamer *V. N. Barlow*, Capt. C. Townsend, is now plying between this place and Neenah. It is 130 feet beam, two boilers and is furnished in a style which will vie with most any of the lake boats.—*Marquette Mercury.*

Many good things have been deservedly said of the *Barlow*, but our friends of the *Mercury* must have looked at her *dimensions* through patent *magnifiers.*

FIRE AT PRINCETON, *Marquette* Co.—The Berlin Mercury states that on the 16th inst., the building owned by A. RANDALL, at Princeton, and occupied as a dry goods store, and as law offices, was destroyd by fire. Building and goods insured. The library of S. W. Holmes, valued at $300 besides some valuable papers, was entirely consumed, as was also the docket and papers of Justice Eddy, and the records of the town of Pleasant Valley.

RIPE STRAWBERRIES.—The boarders at the Burnet House, Cincinnati, were treated last week, to ripe strawberries in great profusion. They were bought in the market at one dollar per quart. Which of our gardeners will have the first ripe strawberries here?

☞ Among the dead letters sent to washington Post Office, last quarter, about one hundred were addressed to Jenny Lind Goldschmidt with the postage unpaid.

MAILS TO BERLIN.—The Marquette Co. *Mercury* says that by late arrangements, a daily mail reaches Berlin from the East, by the boats and stages.

New Publications.

A JOURNEY through Tartary, Thibet and China, by M. Huc. 2 Vols. D. APPLETON & CO. N. Y.

ARNOLD & WILSON have laid upon our table the Appleton's neat reprint of this interesting and entertaining French book of travel, forming part of the "Popular Library," which that extensive publishing house is rapidly issuing, in uniform style. The contents are a translation of travels in the regions mentioned in the title, by a French Missionary Priest, who was delegated with one companion to search after the "Apostolical Vicariat of Mongolia." The strange manners and customs encountered, the adventures which the travellers shared together, the wonders which they saw, are related with a delightful simplicity, amounting sometimes to singular credulity. Much information is given to the world of a hitherto unexplored region.

THE PARIS SKETCH BOOK, by W. M. THACKERAY. 2 Vols. D. APPLETON & CO. N. Y.

Messrs. ARNOLD & WILSON have also favored us with the reprint from the same house, of "Michael Angelo Titmarsh's" well known work.—The oddity of the author's mind is clearly enough evinced by the dedication of the book to a Paris tailor, who, after he had presented his bill of items to Titmarsh for payment without success, offered to lend him a thousand francs. For the rest, the Paris Sketch Book is well known to the public, and this new and elegant, tho' cheap, reprint will be eagerly sought after.

A. & W. invite attention, in our advertising columns, to a long list of new and choice publications; among them many of the standard works of the day.

LAST NIGHT OF THE KUNKELS.

The "Nightingales" appear for the third and last time *this* evening, with an entire new Programme. They have won the good opinions of all who have heard them, and keep their audiences in the highest good humor. GEORGE KUNKEL's Solos are excellent, and Lehr's Banjo playing is not to be beat. The dancing, choruses, &c. are likewise very good, and elicited shouts of applause from the crowds who attend the "Nightingale" Concerts. Their performance to-night will be of "extra" quality.

AN ERROR.—The *Wisconsin* publishes an article which has somewhere got into circulation, stating that the Fakir of Siva received his title at Fokein, China, from his imperial highness Hong Quo-Chong. It is a great mistake. That gentleman *was* about to confer upon the magician a name, when he was frightened into fits by the miraculous sword-playing of Mr. Haskell. The prince entreated the interference of the Emperor, who directed that H. should be sent out of the country at the rate of 1000 le per day. Great sympathy was excited in his behalf, and hence the late revolution.

REAL ESTATE IN MILWAUKEE.—The lot on the corner of East Water and Huron Streets, opposite the U. S. Hotel, 20 feet by 80, was purchased yesterday by MCCREA & BELL, Bankers, for $4600. We are glad to hear that Messrs MCCREA & BELL intend to build at once; replacing the small frame tenements now on the lot with a handsome brick building. Five years ago the lot in question was purchased by D. A. J. UPHAM Esq., at what was then deemed the very extravagant price of $1200.

☞Persons bound eastward will notice, by the advertisement of the agent of the line, Capt. COTTON, that the arrangements are now completed for putting them through, if not by daylight, at least in the shortest time yet made, by the Michigan Central Railroad Co., connecting at Detroit with steamers in every direction.

CRICKET.—The regular Weekly meeting of the Cricket Club, for practice, takes place at 3 o'clock *this* afternoon, on the grounds North of Spring-st. Hill. Gentlemen wishing to join the Club, will please apply to the Secretary, Mr. PEACOCK, who will be "on hand" as usual.

YOUNG MEN'S ASSOCIATION.—The members of the Association meet this evening, at their rooms in Kirby's Block, to vote upon the new code of rules under their charter. It is hoped that there will be a full attendance.

THE MILLS.—We learn that the matters in dispute between the Canal Company and some of their lessees, are still unsettled, and that the Mills, after working on Friday, have again stopped, their supply of water being cut off.

AUCTION SALES.—Bargain lovers will find food for contemplation in the notices of sales of Furniture, Dry Goods, &c., &c., at auction, by the various dealers in knock down arguments.

FOR BUFFALO, *Around the lakes.*—The fine steamer *Globe*, Capt PRATT, leaves this evening for Buffalo. She is in capital order, and will make a quick and pleasant trip. She beat the U. S. mail up, and can do it again.

CIRCUIT COURT.—Duncan C. Reed, verses, Lister H. Calhoun. Trial concluded, and Jury charged. Watkins and Arnold for pl'ff. Emmons and def't.

SOUTHERN LINE.—COCHRAN sells tickets thro' by the Southern line to Toledo and further east. The arrangement commenced this morning.

FARM FOR SALE.—See the advertisement of a desirable farm for sale near Waupun, Fond du Lac Co.

IMPORTANT TO SETTLERS.—Mr. Spalding, Register of the Green Bay Land Office, has informed the Marquette *Mercury* that the plats have been received for the following list of lands:—

Townships 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24. Range 9.
Townships 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, in Range 10.
Townships 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, in Range 11.
Townships 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, Range 12.
Townships 17, 18, 19, 20, in Range 13
Townships 18, 19, 20, in Range 14.
Townships 18 & 19 in Range 15.

The lands lie in Columbia, Marquette, Waushara, Waupaca, Portage, and Winnebago counties, and the surveys are nearly complete in all of them.

The Indian title will be extinguished on the 1st of June, after which date the lands will be open to pre-emption.

POPULATION OF CHICAGO.—The *Democrat* sets down Chicago at "*one hundred thousand* population at the close of 1855," declaring that its growth for the last two months "has exceeded anything the maddest enthusiast ever dreamt of."

HOOFLAND'S GERMAN BITTERS.

THESE celebrated Bitters prepared by Dr. C. M. Jackson, 120 Arch-st., Philadelphia, are performing astonishing cures throughout the whole country. We can bear witness to their curative powers in the case of a friend of ours who had the Liver Complaint, and who had tried almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the disease spoken of, and many others to which 'flesh is heir to. There is a spurious article made in Philadelphia. The only place to get the genuine article is 120 Arch-st., Philadelphia, of Jackson, or his agents throughout the country.

NOTICE EXTRAORDINARY—GREAT IMPROVEMENT.

JOHNSON'S Chemical Hair Invigorator,

TO prevent baldness, and to restore the Hair that has fallen off or become thin, and to cure effectually scurf or dandruff. Prepared only by S. JOHNSON, Jr., 151 East Water Street, Milwaukee.

The subscriber respectfully informs the public, that he has made recent improvements in the manufacture of the celebrated CHEMICAL HAIR INVIGORATOR. It was originally intended more as a restorative for DISEASED hair, than as a BEAUTIFIER, but by a late discovery, the proprietor is now manufacturing it on a more extended scale, and in such a manner, that without deteriorating from its beneficial qualities, it renders it more desirable as an appendage to the Toilet.

The INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended, with a most delicate, silky and glossy moisture for the hair never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c, which free the hair, thereby preventing baldness and gray hair; entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy and glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads it lays the foundation for a good head of hair.

N. B.—Those having Invigorator on hand may exchange for the improved. S. JOHNSON, Jr.,

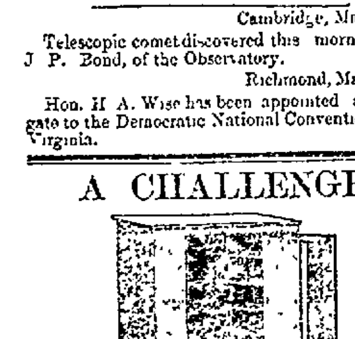
A CHALLENGE



In the Sum of $1,000.

"THE excellence of a pudding is only found out by eating;" and so is the superiority of a safe only known by testing it. The following challenge has been published in the New York papers since Nov 10, 1851, and no one has yet dared to accept it—and this together with the fact that in the five hundred accidental fires in which these *Salamanders* have been tried, there is not an instance where their contents have been injured.—They were placed in competition with thirty different kinds at the World's Fair, and received the only premium given. All sizes of these celebrated safes may be found at 87, 89 and 91 East Water street, Milwaukee, at the manufacturer's prices.

A Challenge in the Sum of $1000.

To all Safe Makers in the United States who do not make or infringe upon Wilder's Patent, a right which I have enjoyed and furnished to the Public with all the improvements since it was first patented. The result of several former trials, when fairly tested with other safes, and the numerous accidental fires which have brought them in contact with other safes, has deservedly placed the Salamander Safe, manufactured by me, far ahead of all similar protectors. In order that the public may have a further opportunity of judging whether their verdict as rendered in favor of my safe has been a correct one I propose another fair and impartial trial upon the following conditions.

First—A committee of respectable citizens to be selected (as may hereafter be agreed upon) to conduct the trial.

Second—Each party accepting and entering upon terms in writing, to furnish said Committee with a given number of names of parties who have purchased their safes and now have them in use.

Third—The Committee to select one of each Maker's, of corresponding size, so that the Maker cannot be allowed to manufacture one expressly for a furnace or blow-pipe heat, as such suspicion has always attached itself to all premeditated tests of Safes.

The public are not interested to know who can make a Safe to stand a blast-furnace or a blow-pipe heat the longest. But it is of vast importance to the whole commercial world to know who furnishes those which prove the best in a natural, accidental fire, such as one would be subjected to in the burning of a store, house, factory, or other building.

Fourth—The Committee to conduct the fire and render a report in writing for publication.

SALAMANDER SAFES.
WILDER'S PATENT AND RICH'S PATENT COMBINED.

$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York.—Three stores and their contents destroyed. Deeds, not words!

Eleven Safes of different makers consumed with their contents. The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them.

MR. GILBERT'S LETTER.

THE FIRE IN FLETCHER AND PEARL STS., NEW YORK.

New York, Dec. 20, 1851.

Messrs. STEARNS and MARVIN, successors to C. Rich & Co., No. 146 Water Street, New York—Sirs, when the fire was consuming my place of Business, No. 216 Pearl street, I was absent in Rensselaer County, testing a new cleaning apparatus in connection with my Excelsior Thrasher, and I did not read the account until I was fearful it was too late to save my books which were placed in one of your safes purchased from Mr. Marvin some years ago. My fears were increased when I found it was seven days upon my return to apply the Croton Water 10 hours before I was able to commence operations, after which it required [illegible] hours of labor to [illegible] to raise the Salamander from its ashy bed. You may judge of my anxiety [illegible] and my agreeable surprise upon opening, in the presence of a number of gentlemen, to find my books and papers safe and as legible as they were previous to the fire. The intense heat to which the safe was subjected can be conjectured from the condition of another safe (not a Salamander) of which the iron skeleton frame only remained and [illegible] a heap of ashes. They were [illegible] in the same room on the second floor, from which they fell through [illegible] earthen ware in the cellar, the ruins of which the Salamander [illegible] position had been [illegible] I [illegible] My loss over the insurance is $1,000, yet the salvation of my books in your Salamander with the representatives of $100,000 [illegible] important documents which could not be duplicated [illegible] satisfactory [illegible] me.

I will [illegible] great pleasure to exhibit the new safe purchased of you and [illegible] at my present place No. 2 [illegible] Pearl street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, JUSTIN G. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire (particularly those having Rich's Safes in use) to call at the store of 146 Water street, New York, to see the [illegible] Mr. Gilbert, with the books [illegible] which [illegible] kindly permitted to remain for the satisfaction and gratification of the public.

MISCELLANEOUS.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1850, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the Woodworth Patent, shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons, [illegible] of their true worth. I would state for the information of the enquirers that they will find substantially the machines now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham in the year 17[illegible]. A like machine was patented in this country by one King, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that, after fifty [illegible] years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and ten per cent for my trouble.

JAMES G. WILSON.
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before that could do so much work and do it as well as mine. In reply to the above advertisement and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from Mr. Wilson, that ONE of my machines will plane or plane, tongue and groove with less power as much lumber in the same time, and do it as well, or better than TWO of the Woodworth machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

We would respectfully call the attention of our many friends and the public generally, to an instrument we have recently imported from Paris called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away, as the Hats are made to fit perfectly the first time.

Another great advantage is by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25, surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat and are willing to save 25 per cent, to call and see us.

PATENT MEDICINES

Graefenberg Medicines
HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public they have no superiors. They are emphatically what they are represented to be, *genuine* and free from *Humbug* intended as much to *cure* as to *sell*. When once used they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health*. In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES. No *Family Physician* in ordinary cases, is needed by those who own the *Graefenberg Manual of Health* and strictly abide by its directions in the use of the medicines!

A word to the *wise* is sufficient, without the publication of certificates which we have of the most flattering description always open for the inspection of the incredulous.

We will enumerate in conclusion the various preparations of this Company which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but *as it should be, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last [illegible] and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. [illegible] safe and sure [illegible] in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflammation, healing burns, bruises and all injuries to the body we can confidently recommend this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION.—An unpretending article but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most skilful physicians. For *Prolapsus Uteri*, and all complaints incident to *Females* it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILDS PANACEA, &c. are all invaluable remedies, directions for which and all the medicines are attached to each.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralyzes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate, whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach, whether it arises from internal derangement or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity, it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconite, Belladonna, Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves to sensation and stop the nervous energy to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,

And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,

Diarrhœa,	Dysentery,
Bloody Flux,	Cholera Morbus,
Painful Discharges,	

It removes the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the stomach, in the bowels, in the Liver, Kidney's, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck,
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair—
Makes it strong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair up on the scalp, and forces it to grow—
Like guano to a barren soil it makes it rich and productive—
To dress the hair, make it smooth and glossy,—
Strong and beautiful. &c.

Radway's Circassian Balm is the "ne plus ultra."

LIVER COMPLAINT.

JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS, AND all diseases arising from a Disordered Liver or Stomach, such as Constipation, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the sight, Fever and Dull Pain in the Head, DEFICIENCY OF PERSPIRATION, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c. Sudden flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits, CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.
[From the Boston Bee.]

The Editor said, Dec. 31: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25: "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:— It is one of the best medicines of the age for Jaundice and Liver Complaint.

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine.—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

CINCINNATI, Oct. 26, 1849.

We the undersigned Druggists and Merchants of this city, have been acquainted with and sold for 2 or 3 years past, an article of Family Medicine, known as PERRY DAVIS' VEGETABLE PAIN KILLER, and we would assure the public that in every instance so far as we know, it has given the best satisfaction to the purchaser. A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co., of Buffalo, which is a worthless imitation, and the pamphlet is a "BASE FORGERY" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds, such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c., all of which have been got up on the reputation of Perry Davis' Pain Killer. The public are cautioned against these mixtures.
